

Cape Cod Community College Dental Hygiene Program Sealant Clinic

**February, 16, 2012
At
5:30pm, 6:30pm, and 7:30pm**

The Dental Hygiene Program at Cape Cod Community College is pleased to offer dental sealants free of charge to children between the ages of 6-17 years old. The next sealant clinic will be held on Thursday, February 16th beginning at 5:30 PM, in the Dental Hygiene Clinic at Cape Cod Community College.

The application of dental sealants is highly effective in preventing dental decay. Dental decay is the most common chronic disease in school-age children. Dental sealants are painted onto the molar teeth and cured with a visible blue light. The procedure is quick and easy.

Please inform parents of this wonderful opportunity by including the above information in web site announcements, newsletters, backpack folders, and early dismissal telephone calls. Interested parents can call the dental hygiene clinic manager, Susan, at (508)-362-2131 to schedule an appointment. Thank you very much for helping to provide this service to the children of Cape Cod and surrounding communities.
