Employee's Primary Place of Employment¹	
Average Number of Weekly Hours Worked²	

¹ An employee's "primary place of employment" means the worksite or physical location where the employee spent the greatest percentage of work hours between the dates of January 1, 2020 and April 30, 2021; temporary telecommuting arrangements entered into during this period should not factor into this determination. For a new employee who commenced work on or after May 1, 2021, "primary place of employment" means the worksite or physical location where the employee is expected to spend the greatest percentage of work hours between the first day of work and April 1, 2022, based on the work arrangement agreed upon between the employer and the employee. However, an employee's "primary place of employment" is not in Massachusetts if they have been permanently transferred out of state.

² For employees whose schedule and weekly hours vary from week to week, the average number of hours that the employee was scheduled to work per week over the previous 6-months. If an employee with a variable schedule has not worked for the employer for 6 months, the number of hours per week that the employee reasonably expected to work when hired.
